MEMORANDUM

To: All Department Heads
From: Margaret Thompson, CEO
Date: March 15, 2024
Subject: Q1 Performance Review and Team Restructuring

Dear Team,

I am writing to inform you of several organizational changes effective immediately. After careful review by our executive committee, the following appointments have been made:

1. Robert Chen has been promoted to Vice President of Engineering. He will oversee all technical operations moving forward.

2. Dr. Sarah Williams will join as Chief Data Scientist, reporting directly to the CTO, James Anderson.

3. Maria Garcia has been appointed as Head of Product Design. She previously led the UX team at our London office.

4. The new project codenamed 'Atlas' will be managed by David Nakamura and his team of senior architects.

Please direct any questions to Patricia Okonkwo in Human Resources or contact me directly.

Best regards,
Margaret Thompson
Chief Executive Officer
